Ray Martín

Senior Fullstack Developer

SAAS, FINTECH & REGTECH, MOBILE · NEXT.JS · TYPESCRIPT · STRIPE

hi@raymartin.es · +34 711 529 362 · raymartin.es · linkedin.com/in/raymardev · Canary Islands, Spain · Remote · EU & LatAm

PROFESSIONAL SUMMARY

Product-focused fullstack developer with over 7 years building web and mobile applications with Next.js, React, React Native, Node.js and PostgreSQL. I own the whole cycle: architecture, development, Stripe payments, deployment and maintenance. I have spent years on products with regulatory compliance (KYC/AML with Sumsub, blockchain and regtech) and I am now a partner at Aurantis. I also build my own products end to end, from the web app to the iPhone app, and I work with AI agents as part of the engineering process.

PROFESSIONAL EXPERIENCE

Investing Partner and Product Manager · Aurantis

Sep 2026 – Present · Partner · Remote

- On-chain compliance platform for digital assets and tokenized real world assets: anti money laundering, market surveillance and post-trade in one product.
- Product management: backlog and tasks in Jira, planning and tracking the work.
- Built the whole aurantis.io website and support technical decisions for a product built on AWS, Node.js and React.
- Mobile Lighthouse 98/97/100/92 (aurantis.io, 21 Sep 2026).

Senior Fullstack Developer · Fenixmoca

Jan 2025 – Present · Freelance · Remote · Madrid, Spain

- Five client projects since January 2025, including 4Pets and TokenCrowd, with Next.js and React on the web and React Native with Expo on iOS and Android.

Senior Frontend Developer · 4Pets

Oct 2024 – Present · Freelance · Remote · Madrid, Spain

- Pet health web and mobile app with Next.js and React Native (Expo), end to end except the backend.
- App published on the App Store and Google Play, with around 5,000 downloads.
- Now handling fixes and maintenance for the project's sale phase.

Fullstack Developer · Abanza · Abanzamed

Jan 2024 – Present · Freelance · Remote · Madrid, Spain

- Migrated the Abanzamed corporate website (healthcare) from Webflow to Next.js and Supabase, with a custom CMS.
- The team manages its own content without developers, and the site loads much faster than the Webflow one.

Lead Frontend Developer · Analyxia

May 2024 – Feb 2025 · Freelance · Remote · Madrid, Spain

- AI assistant on Spanish law and a public grants finder for SMEs, early in the generative AI boom.
- Owned the whole frontend and backend infrastructure (Next.js 14, Vercel), excluding the AI model.

PERN Stack Developer · Metary

Nov 2022 – Jan 2024 · Full-time · Remote · Madrid, Spain

- Blockchain ecosystem with on-chain crypto market analysis, chart comparators, a document manager, an NFT builder and guides for starting crypto projects.
- Built the whole frontend with Next.js, React, TypeScript and Tailwind on Vercel, with 2FA authentication.
- Backend with AdonisJS on Docker containers, a Laravel admin panel and PostgreSQL on AWS.

Web Developer · Freelance Jan 2023 – Mar 2024 · Remote · Canary Islands, Spain

Bespoke corporate and e-commerce websites in Webflow for Asesorae, Visa Nómada Digital and Distribuciones Valeren.

Data Scientist Assistant · Butler Scientifics Sep 2020 – May 2022 · Full-time · Barcelona, Spain
Statistical data analysis with Python and custom applications.

Frontend Developer · Raúl López May 2019 – Jun 2020 · Freelance · Las Palmas de Gran Canaria, Spain
Web and mobile interfaces with React, Firebase and MySQL.

SELECTED PROJECTS

- **Rivelko AI**. My own SaaS for AI generated conversational forms. Hexagonal architecture on Next.js 16 with AI SDK, Stripe, CRM, webhooks and agent access over MCP · rivelko.com
- **Naranest**. App to track a baby's day across several carers, with WHO percentiles. I build it with Verónica in Next.js and Capacitor, from the web app to the iPhone app, on the App Store since Sep 2026 · Mobile Lighthouse 99/92/100/92 (naranest.app, 23 Sep 2026) · naranest.app
- **Tarnix**. Loot ARPG for iPhone in Godot 4, with the full App Store cycle: developer account, TestFlight, command line build uploads and store listing · raymartin.es/tarnix
- **TokenCrowd**. Blockchain crowdfunding platform with Next.js and Prisma, KYC/KYB verification (Sumsub) and wallets · app.tokencrowd.io
- **Crewstr**. Social platform for roleplay communities on Next.js 16, with an iOS and Android app (Capacitor) · crewstr.com

Open source: use-overflow-scroll (React drag-to-scroll hook), @raymardev/react-native-intersection-observer (scroll intersections in React Native), hurray-ui (React component library).

HOW I WORK

Engineering with AI agents: Several Claude Code sessions with split responsibilities, reviewer agents for security, performance, infrastructure and quality, hooks and authorization rules.

Self-hosted infrastructure: Server on Docker Compose (PostgreSQL, n8n, ntfy, Immich) exposed through Cloudflare Tunnel and protected with Cloudflare Access. Nightly backups, a weekly restore test and an off-machine copy.

AI automation: n8n workflows that classify invoices and extract their data with OpenAI models, with a ledger and tests before every model change.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, Python, PHP, HTML, CSS

Frontend & mobile: React, Next.js, Tailwind CSS, React Native, Expo, Capacitor

Backend: Node.js, AdonisJS, Laravel, Prisma, APIs REST/GraphQL

Databases: PostgreSQL, Supabase, Firebase, MySQL

Integrations: Stripe (payments and billing), Sumsub (KYC/AML), Magic Link, Web3 and wallets, OAuth (Google, Apple, GitHub)

AI: AI SDK, MCP, n8n, OpenAI, Claude Code (agents and hooks), Cursor, GitHub Copilot

DevOps & cloud: Vercel, Cloudflare (Tunnel, Access, R2), AWS, Google Cloud, Docker, GitHub Actions

Quality: Unit, integration and E2E tests (Vitest, Jest), Core Web Vitals, WCAG 2.2 accessibility, Web security

EDUCATION

Bachelor's Degree in Tourism · Universidad de Las Palmas de Gran Canaria
2017 – 2021 · Las Palmas de Gran Canaria, Spain
Business grounding: digital marketing, project management and quality management (internship at Satocan Group).

Certifications: Responsive Web Design (freeCodeCamp, 2022) · JavaScript Algorithms and Data Structures (freeCodeCamp, 2022)

Languages: Spanish: Native · English: Intermediate (B2) · French: Intermediate (B1)

Last updated: 23 Sep 2026
